An experience that allows you to form your own opinion of the story.  
Various social interactions, such as polls and guild recruitment.  
A large-scale, persistent multi-battle environment.

A massive world filled with unique dungeons, including randomly generated dungeons that are unified through the use of procedurally mapped dungeons where monsters are generated by four threads.  
Unprecedented PvP content with dynamic matches that will give you countless skill-boosting opportunities.

### Unique Online Battle Mechanics:

Epic battles. Using both your action and skill, it's time to go head-to-head with your opponent in a dynamic, large-scale battle that will maximize the excitement.

In a New Kingdom, the very survival of your character strongly depends on the strength of the team you make with other players. Even if you place in dead last, you can still receive one-on-one support from your guildmates, and the magic of the fight will coolly be transformed into a show of strength. When you're in a clan with a number of strong guild members, the combat will be more fun.

The player unit is equipped with two weapons (offensive or defensive), a shield, and two magic. There are three types of weapons to choose from when playing PvP, meaning that there are multiple ways to create a unique strategy. On the ground, attacks will no longer be limited to only basic attacks in New Kingdom, which will provide a completely new gameplay experience. In addition, the speed of movement and attack will also be enhanced.

You can freely pick up items that will enhance your skills from NPC vendors, and it's also possible to interact with other players in the ways listed below. The stats of all items will be obtained from the items your character drops when you lose a battle, and there will be plenty of items to choose from in the item box.
