The extremely positive reactions to both of \bar{A} . Evangelismo Dinamico Luisa J Walker Pdf 38. (Continuing). The extremely positive reactions to both of \bar{A} . there's a rich area and a poor area. The rich area is populated by rich people. The poor area is populated by poor people. Where I live, you can look at a map of the town and see there are roads connecting the rich and poor areas. Additionally, there are rich people living in the poor area. The average rent price for the entire town is much lower than that of specific locations within the town (such as upper class or lower class locations). One example of the rich area is along the water. It has houses that can often cost over \$1 million dollars. The poor area is near the town's center. These same houses may be sub-par and vacant. There's no way to
